Penetration Testing for SaaS Company

PROJECT DETAILS

 Cybersecurity

 Jul. 2022

 \$10,000 to \$49,999

“

"They were very professional and friendly to work with."

PROJECT SUMMARY

Vumetric Cybersecurity did extensive external and internal penetration testing on a SaaS company's environment and network infrastructure. They identified the issues and rectified them to comply with SOC2.

PROJECT FEEDBACK

Vumetric Cybersecurity completed the project, which met the client's expectations. They regularly communicated with the client during the engagement. Their professionalism and friendly approach impressed the client.

The Client

Please describe your company and your position there.

I am the owner of a SAAS based transaction processing and Document Conversion Service company

The Challenge

For what projects/services did your company hire Vumetric Cybersecurity?

External and Internal penetration testing of our infrastructure as we handle consumer oriented information that is timely and in many cases, private and confidential.

-  Owner, SaaS Company
-  Software
-  11-50 Employees
-  Dorval, Quebec

CLIENT RATING

The Approach

How did you select this vendor and what were the deciding factors?

We worked with Vumetric in 2021 and were fully satisfied with their services and recommendations

Describe the project in detail and walk through the stages of the project.

Vumetric performed extensive external penetration testing on our environment and then internal testing on our infrastructure to provide us potential issues and remediation that may be helpful to attain SOC2 compliance

How many resources from the vendor's team worked with you, and what were their positions?

We had one manager and two technical resources from Vumetric that worked with our team

The Outcome

Can you share any outcomes from the project that demonstrate progress or success?

A full report of their findings from the internal and external penetration tests were provided as well as a report detailing 7 remediation items that were highly suggested.

How effective was the workflow between your team and theirs?

Communication was constant and Vumetric met all the milestones they detailed in the quotation.

What did you find most impressive or unique about this company?

They were very professional and very friendly to work with. Good communication and detailed information provided in both the quotation and the detailed reports provided.

Are there any areas for improvement or something they could have done differently?

At this time, I am very comfortable to recommend Vumetric and will probably continue to utilize their services
