Vumetric Cybersecurity

External Penetration Testing for Medical Practice Company

PROJECT DETAILS

🏷 **Cybersecurity**

🕒 **Jun. - Jul. 2022**

💲 **Less than $10,000**

❝ *"They were professional, knowledgeable, and transparent throughout."*

PROJECT SUMMARY

Vumetric Cybersecurity performed manual and automated security testing for a medical practice company's IT perimeter. They used international methodologies like PTES and OSSTMM, and their own security method.

PROJECT FEEDBACK

Vumetric Cybersecurity successfully completed the project, which met the client's requirements. They kept the client updated and provided comprehensible data reports, and their overall work ethos impressed the client.

The Client

Please describe your company and your position there.

I am the Director of IT and CISO for our organization

The Challenge

For what projects/services did your company hire Vumetric Cybersecurity?

Perform external penetration testing to determine the strength of our IT perimeter and degree of risk from external hacking.

Louis Eaglehouse
Director of IT & CISO, Medical Practice Company

Healthcare

501-1,000 Employees

Exton, Pennsylvania

CLIENT RATING

5.0
Overall Score

Quality: 5.0

Schedule: 5.0

Cost: 5.0

Would Refer: 5.0

The Approach

How did you select this vendor and what were the deciding factors?

Recommended by our MSP.

Describe the project in detail and walk through the stages of the project.

They performed automated and manual security testing of all externally accessible systems within the defined project scope. The tests leveraged internationally renowned methodologies such as the Penetration Testing Execution Standard (PTES) and the Open-Source Security Testing Methodology Manual (OSSTMM), as well as the Vumetric security assessment methodology.

The Outcome

Can you share any outcomes from the project that demonstrate progress or success?

No significant vulnerabilities requiring escalation have been identified. Several minor vulnerabilities were identified which were remediated immediately with one remaining and remediation a work in progress.

How effective was the workflow between your team and theirs?

They met our timeline for starting and ending the testing and kept us updated throughout the testing process. Their presentation of findings and recommendations was engaging and effective. Their report of findings and recommendations was easy to understand.

What did you find most impressive or unique about this company?

They were professional, knowledgeable, and transparent throughout.

Are there any areas for improvement or something they could have done differently?

Nothing to note.
